Nail guard is an amazing product! Self levels beautifully, super durable and great with problem lifters. It does have a heat spike so be careful and I find it files more like an acrylic versus a gel. It's not as soft and you really need to make sure it... See More

Omg this stuff changed the game for me! It's all I use on anyone now.. from short overlays to longer nails as well. Zero lifting even on problem nails. And it self levels so it saves you the finish filing step 🤩Uh-mazing stuff!!

Wat is it exactly I'm looking to try a new gel system and I saw this. Is it just a healthier alternative to regular gels
